

Expert Highlights

- Certified Management Accountant.
- Experienced in forensic accounting, commercial damages, government contracting, and investigations.
- Expertise building complex and dynamic financial models and constructing and analysing large databases.
- Broad sector experience ranging from aerospace and government contracts to financial services and transportation.

Angela Fu is a Certified Management Accountant with more than 8 years of experience. She has been appointed as an expert and assisted the named expert on numerous occasions.

Angela's expert work covers commercial damages, economic and accounting analysis, government contracting, and settlements and distributions related to US Securities and Exchange Commission (SEC) investigations.

She has advised clients across numerous industries including aerospace, construction, financial services, manufacturing, professional services, and shipbuilding. Her consulting roles have included several settlement calculations and distributions related to SEC investigations.

Angela's expertise includes the assessment of damages related to breach of contract, lost profits, defective and delayed deliveries, productivity, disruption and delay, changes, increased costs, insurance recovery, and other economic damages. She has extensive experience working with large datasets and is adept at building complex and dynamic financial models and constructing and analyzing large databases.

Angela is a member of the Institute of Management Accountants. She holds a degree in finance from the University of Notre Dame, with a supplementary major in applied and computational mathematics and statistics.
