

Claims and dispute resolution

HKA has developed an international reputation for innovative approaches to preventing and resolving time and cost overruns on major construction projects worldwide.

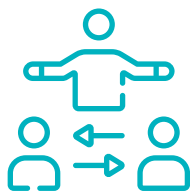

Our highly experienced professionals —including engineers, commercial and contract managers, planners and schedulers, quantity surveyors, cost engineers, contract administrators, as well as delay and productivity experts, technical forensic engineering and architectural experts and forensic accountants and damages experts — are available to support client teams at any stage of a project's life cycle.

Our team in Asia Pacific is multi-skilled, with first-hand experience on first-of-a-kind megaprojects spanning all major industries, as well as an international track record of achieving successful outcomes. Since 2018, we've provided claims consulting and investigations on more than 1,800 projects around the world valued at \$1.43 billion (average CAPEX USD). HKA's global portfolio includes prestigious projects on every continent and in market sectors that include buildings, industrial, infrastructure, oil and gas, power and utilities, and technology.
